

Nature Walk

God made you, God made me.

God made trees, God made leaves.

God says: please take care of these ...

It's always fun to help and be with our green friends as they help to keep our environment clean, in purifying air and giving us oxygen to survive.

The Pre-primary section had real fun time on their visit to the ground, herbal garden on April 22, 2019 Monday morning at 8:15. The nature walk broadened their knowledge and gave them firsthand familiarity of herbs and trees.

They took a deep breath and were told about how we all inhale oxygen (good air) and exhale carbon-di-oxide (bad air).

The children were shown the difference between a big tree and a plant. They were made to feel the texture and observe the varying shapes of different leaves.

Children collected flowers, leaves, grass etc. from the ground and with these things they created beautiful drawings. Children enjoyed a lot.
